## About

- Passionate developer, looking for new opportunities to enrich my skills and take on new professional challenges.

## Projects

### ABSENCE MANAGEMENT APPLICATION FOR ISMO

- Web application to digitize absence management, streamlining tracking and analysis for trainers and trainees. The system automates processes, improving communication and administrative efficiency.
- Technologies used: HTML5, CSS3, JavaScript and PHP.

### E-COMMERCE WEBSITE

- Design and development of a dynamic e-commerce website for a coffee brand offering a user-friendly shopping experience with features such as search and category filtering.
- Technologies used: HTML5, CSS3, JavaScript (jQuery, AJAX), JSON for data management.
- DEMO : <https://intissarajaan.github.io/E-commerce-coffee-shop/>

### SIMPLE ONLINE QUIZ GAME

- Quiz game web application where users answer questions based on a selected category.
- Technologies used: HTML5, CSS3, JavaScript and JSON.
- DEMO : <https://intissarajaan.github.io/Quiz-Game-Cognorise-Info-Tech/>
